PASI 2011

Process Modeling and Optimization
for Energy and Sustainability

Things We Learned

- Theory, techniques and applications of optimization and control
- GAMS, LINGO, EMSO, AUTO and MATLAB
- No shower curtains in Brazil
 - ▣ Opportunity for water recovery
- Sports are better with Professors
- $F(\text{Brazil} \mid \text{winter}) > F(\text{U.S.} \mid \text{winter})$

Suggestions for PASI 2014

- More presenters from Industry with practical applications
- Time constraints on presentations rushed important topics
 - ▣ Reduce number of presenters
 - ▣ Separate software demos from lectures
- Information session on future conferences
- DON'T lose our invitations in the mail!

Thank you!
